

The Inside Stuff

©2017 Deidre L. Dixon

(Inspired by Apostle H. Daniel Wilson Sermon on April 9, 2017, "The Inside Stuff")

God can do immeasurably more than the things you ask for, guess, request or imagine in your wildest dreams.
He does it according to the Holy Ghost power that is in us, though we walk around like we have no power it seems.

This power is not an exertion of your own measly energy, but supernatural power from the King.

His power is all encompassing with no obstacles that can hold it back from anything!

God's power is not like Commonwealth Edison that goes out when your bill is not paid.
His power is not even like the President who decisions are questioned they are made.

God Almighty is omnipotent; the greatest power there is in the universe!
He is the only one who can distribute the kind of power you need; the supernatural power only He can disperse.

It's the stuff that is inside of you that gives you the power to decree a thing or to lay hands and heal.

It's that electrifying Holy Ghost power that operates inside and causes you to praise God with zeal!

God's power can transform you from your innermost parts and all the way to the outside.
God's power is that inside stuff in you; the power that in you abides.

Take hold of the power that God put inside and realize that it does not come from you.
When you operate by faith in the power of God, there is so much more that you can do!

God has put the stuff inside of you that will help you serve in His Kingdom with power!
That inside stuff you've got inside of you will work when you put it to use this very hour.

Don't let God's power go to waste; using it is an absolute must!
When you operate in power, God will be glorified 'cause you used that inside stuff!
